This game is a cute little excuse to spend that spare buck burning a hole in your Steam wallet. It's short, it's a little tropey, it recycles music and interface from the creators' previous games, but it's just something short and sweet to kill an hour on if you don't wanna do anything else before you need to go somewhere.. I played for 0.3 hours...because I skipped from the start to end. All because when I read a few sentences, I got bored. I felt like I needed to inform everyone what this game is about. Though I don't know what to feel about it, I want to share my thoughts.

#### --GENERAL--

- I had no idea that this was a Yuri-themed V.N.
- I didn't read the comments nor other stuff aside from the summary, so I have a fault here. I kind of wished that it was explicitly said in the summary though. Too late. So, boo me.
- It is casual indeed. As in VERY.
- Don't expect anything guys. Don't.

#### --SCRIPT--

- The script was like rushed.
- The profanities were a bit forced. Sometimes, they don't add emotions well.
- Poor scripting and I already knew what would happen.

#### --GRAPHICS--

- The graphics is okay for the price. Very entry-level. So again, **don't** expect too much. (By the way I got this at 40% off).
- I wish they improved more though because it also looks rushed.
- But for the price, it's "ok."

#### --Music--

- In general, it's **FINE**. Just...fine.

#### --PLOT--

- The casual perverted style. No much emotions involved.

- 
- Mehhh...

--My summary--

A delinquent small-chested girl was forced to go to school. One day, she met a blond girl with the huge front. The first gal is highly interested in her. They became friends, then got misunderstandings. They talked and banged each other.

Boom!

Happily ever after.

Very short indeed.

So don't waste your time on this game. I make better Visual Novels compared to them.

:P. It was.. bad...

The art is not so good, but if the story was better I could be ok with.

But it's not.

The fact that it is amateurish is not really a problem for me, I read a lot of fanfiction that are way worse than that.

For me the biggest problem are the inconsistency, the story is full of them. You never know when something is happening, because there are no transitions, and even when referring to something that happened two minutes ago, it got the date wrong...

First scene, she leaves to get ramen, next scene, she's on her way to school... the next day... and the third day, everyone acts like it's the second one, very, very confusing.

Other than that, the story is shallow, nothing is really happening, nothing is explained, we don't really care or have something to care about.

Well, it's bad.

Fortunately it's cheap but the only reason I didn't ask for a refund is because it would be a ♥♥♥♥♥♥ move to ask for one after finishing the game.. This game is a cute little excuse to spend that spare buck burning a hole in your Steam wallet. It's short, it's a little tropey, it recycles music and interface from the creators' previous games, but it's just something short and sweet to kill an hour on if you don't want to do anything else before you need to go somewhere.. Short VN but worth the time.. Too short, story was pretty scatterbrained, and just in general wasn't interesting. The main character is a jerk and never really stops being a jerk, so she's not likable at all. Love interest is nothing more than a stick with boobs and a hole.

The R-18 patch isn't fantastic, either.

There are so many better Yuri games out there, and so many that are free. I can't say that this is worth your dollar.. Is the story very short? yes quite short. But the story itself is just fine, very sweet and has an awesome ending. Plus it's not bad for \$1

OK, some good and some very bad here... A short visual novel about an unconventional girl falling in love with a girl she rides trains to school with. There are some obvious flaws with grammar, the art is okayish, the music and game engine is nice and the story is fine. But in general the experience does not come over as very believable, slightly rushed. Then again, it was also nice to have a look at characters with qualities that some people would object to. And also to consider marriage for everybody to anyone they love. The world actually needs more unconventional thinkers, and rebels. And for this I will probably score this novel better than what it should get. 5.5/10. play a game not read a book. (00b4u30fbu03c9u30fbuff40). **:P. This is a very short visual novella. Actually, a kinetic novella, as there are no choices, and frankly very little conflict. This delinquent, who would rather play video games needs to attend school, though she has no interest, but meets a cute blond that she decides to find out more about. And it leads to places she is not expecting.**

Also, considering what she considers her options before going to school... let's just say it goes into some uncomfortable territory...

Still, good for its price.... It was.. bad...
